

ALL-NEW ENYAQ COUPÉ iV

ŠKODA

iV

Effective: 1st April 2022

// LEADING EDGE

COMMAND PERFORMANCE

The ENYAQ COUPÉ IV's exterior design doesn't simply bring more emotion and elegance to the ŠKODA iV family – it brings edge. Precision lines, sports styling and pulse-quickenng design touches combine to deliver a driving experience that feels more electric in every way. From the muscular bonnet to the expressive rearward sloping roofline, it delivers a sleek design that's both aerodynamic and unapologetic.

DYNAMIC STYLE

The ENYAQ COUPÉ IV's roofline gently slopes towards the rear, merging effortlessly with the tailgate that features a sharp trailing edge. Turn your attention to the sporty front apron and you'll discover a design that's more aggressive and edgy than other models, yet still feels unmistakably ŠKODA thanks to its signature crystalline elements. A final touch of aerodynamic enhancement comes in the form of the striking 20" alloy wheels that come as standard on the vRS.

CRYSTAL FACE

In a car packed with shining examples of ŠKODA innovation, few catch the eye more than the Crystal Face front grille. A dazzling example of beauty and functionality, it features 131 LEDs that powerfully illuminate the road ahead when the headlights are activated. This striking feature is included as standard on the ENYAQ COUPÉ IV vRS.

TINTED PANORAMIC GLASS ROOF

The ENYAQ COUPÉ IV includes the largest panoramic glass roof in the entire ŠKODA range, giving you more sunlight and headroom freedom than ever before. Spanning the entire roof it seamlessly merges with the rear window, further accentuating the car's characterful exterior design. Its special coating also ensures interior temperatures remain at a level all passengers will appreciate.

Models shown are not UK specification. Some of the equipment shown is optional.

ENYAQ COUPÉ iV vRS

TAKING CHARGE

Meet the first-ever all-electric ŠKODA vRS.

Delivering as much as 299 PS and a maximum torque of 460 Nm, the all-wheel drive ENYAQ COUPÉ iV vRS delivers exceptional acceleration and sheer exhilaration at every turn. Its sporting DNA is impossible to ignore, thanks to its 20" Taurus alloy wheels and full-length red reflector strip at the rear.

Take your seat and you'll quickly discover black perforated leather and signature vRS Suite Design Selection.

The maximum electric power determined in accordance with UN-GTR.21 for this vehicle is 220kW (299PS) and lasts for a maximum of 30 seconds. The power available will depend upon individual driving behaviour and other non-technical factors, however the maximum power for this vehicle requires in particular a temperature of the high voltage battery between 23-50 degrees Celsius and a battery state of charge greater than 88%. However, in order to preserve the usable capacity of the battery as much as possible, it is recommended to set a charging target of 80% for daily operation and use (which can be switched to 100% before long distance journeys for example).

The availability of the maximum electrical output could be limited. The amount of power available in individual driving situations depends on various factors, such as ambient temperature and the charge status, temperature and condition or physical age of the high-voltage battery.

Models shown are not UK specification. Some of the equipment shown is optional. Information regarding tyre technical specifications can be found by visiting the ŠKODA car configurator [here](#).

vRS BADGING

20" TAURUS ALLOY WHEELS

FULL LED MATRIX BEAM HEADLIGHTS WITH CRYSTAL FACE

RECOMMENDED OPTIONS

21" VISION ANTHRACITE METALLIC ALLOY WHEELS

In a car already boasting a sleek and edgy aesthetic, the addition of these bold alloy wheels provides even greater presence on the road.

CANTON SOUND SYSTEM

Created in collaboration with German audio experts CANTON, this optional set of 12 speakers and digital equaliser has been masterfully fine-tuned to amplify the listening experience inside the ENYAQ COUPÉ iV.

DRIVE SPORT PACKAGE PLUS

Fine-tune the car to suit your driving style with the option of the DCC Adaptive Chassis, which allows you to choose between normal, sporty and comfortable suspension.

INFOTAINMENT PACKAGE PLUS

Innovation and style powerfully combine with the augmented reality head-up display, which shows key driving data on speed, navigation, traffic signs and assist systems.

HIGH-PERFORMANCE COMFORT

While the design of the all-new ENYAQ COUPÉ iV is unquestionably sharper, sleeker and sportier, we haven't overlooked comfort. In fact, it's loaded with a wide selection of smart features and thoughtful tech that's equally as compelling as its head-turning looks.

Need proof? Simply taking your seat will do the job.

COMFORT SEAT PACKAGE

With this optional upgrade you're assured the best seat in the house on every open road. The electrically controlled front seats feature a super smart memory function and power adjustable lumbar support, delivering you precision comfort at the touch of a button. Drivers also have the option of enjoying a massage on the move.

CLIMATE PACKAGE

A drop in temperature will never result in a dip in luxury with the addition of heated front and rear seats. You'll also enjoy a comfortably easier start on every frosty morning thanks to the Climacoat heated windscreen, which makes light work of ice.

Models shown are not UK specification. Some of the equipment shown is optional. Please note: Some combinations of options can cause the vehicle to be unbuildable. Please speak to your local **SKODA Retailer** or visit **skoda.co.uk** to configure your required specification

Additional information

////////////////

FAMILY PACKAGE

Seek out adventure, explore the unknown and escape the humdrum with the whole family in tow by taking full advantage of the ENYAQ COUPÉ iV's range.

Avoid glares from your backseat passengers by adding retractable side window sunshades, while the addition of two USB-C ports will make sure smart devices never run out of juice.

Models shown are not UK specification. Some of the equipment shown is optional. Please note: Some combinations of options can cause the vehicle to be unbuildable. Please speak to your local **ŠKODA Retailer** or visit **skoda.co.uk** to configure your required specification

////////////////

INFOTAINMENT PACKAGE PLUS

Enhance your time behind the wheel further with the augmented reality head-up display. It clearly displays key driving data on speed, navigation, traffic signs and assist systems in a way that's always illuminating, yet never distracting.

////////////////

DRIVE PACKAGE

Your drive, your way. That's the thinking that sits at the very heart of the ENYAQ COUPÉ iV, which allows you to fine-tune the car to suit your driving style.

A perfect example is the option of the Dynamic Chassis Control, which allows you to choose between normal, sporty and comfortable suspension.

////////////////

ASSISTED DRIVE PACKAGE

It's only natural you'll want to spend hours behind the wheel of the new ENYAQ COUPÉ iV.

With the addition of Travel Assist, long distance driving quickly becomes a breeze too, as the car can adjust its speed according to the surrounding traffic and speed limit allowing you to enjoy semi-automatic motorway driving.

Then there's Adaptive Lane Assist system, which automatically intervenes and keeps the car in the selected lane should you stray from it unintentionally.

TRANSPORT PACKAGE

While the ENYAQ COUPÉ iV's sportier lines and sharper angles suggest a car designed purely for fun, functionality remains firmly front of mind.

Cargo elements in the boot stop your luggage going on any adventures without you, while the variable boot floor brings the bottom of the luggage compartment level with the loading sill to create a concealed compartment for small objects.

Got something big to transport? Simply pull the lever in the boot that allows the rear seat backrest to be folded down.

PARKING PACKAGE

When it comes to taking on tight parking spots, the ENYAQ COUPÉ iV has more than a few dynamic new tricks to discover. Intelligent Park Assist uses the car's sensors to detect and alert you about suitable bay or parallel parking spaces. Once you've settled on a spot, you simply need to pick the right gear and accelerate as all the steering and braking is done automatically for you.

Next up there's Trained Parking, which is used for the automatic completion of a manoeuvre you do over and over, like parking up at home. Simply perform the desired manoeuvre and the system will store the entire route and all surroundings in its memory, then the next time you need to park it'll automatically guide the car to the parking spot from as far 50m away. You can even control the whole process via a mobile phone app.

Models shown are not UK specification. Some of the equipment shown is optional. Please note: Some combinations of options can cause the vehicle to be unbuildable. Please speak to your local **ŠKODA Retailer** or visit [skoda.co.uk](https://www.skoda.co.uk) to configure your required specification

I	151-170	£585	£945	£575
J	171-190	£945	£1,420	£935
K	191-225	£1,420	£2,015	£1,410
L	226-255	£2,015	£2,365	£2,005
M	over 255	£2,365	£2,365	£2,355

OTR (On The Road)

Recommended 'On The Road' prices include delivery, 12 months Road Fund Licence, DVLA First Registration Fee and apply to the UK only.

VED (Vehicle Excise Duty)

All vehicles will be subject to Vehicle Excise Duty based on the fuel type of the vehicle and its carbon dioxide (CO₂) emissions level, measured in grams per kilometre (g/km). Due to changes in vehicle emissions data, CO₂ figures may differ on these vehicles if taken from current ŠKODA UK stock.

Vehicle Excise Duty (VED) is correct at time of publication, but this may alter to reflect any change in the applicable VED rate.

* This rate applies to diesel cars tested to real driving emissions step two (RDE2) standards

** This rate applies to diesel vehicles that do not meet the real driving emissions step two (RDE2) standards.

Note: Vehicles with a list price exceeding £40,000 (including factory installed options, delivery charge, number plates and VAT) will pay an additional £355 plus the standard rate VED from year 2 to, and including, year 6. After the 6th year only the standard rate VED will apply. You do not have to pay this if you have a zero emission vehicle.

Pricing valid as of 1st April 2022.

All prices listed are Manufacturer's 'On the road' Recommended Retail Price. ŠKODA may change prices at any time (this includes where there are government changes in regulation and/or legislation). There may be a delay to any RRP displaying correctly on our materials. Always obtain prices from your chosen Retailer. Images shown do not reflect the stated entry level prices. From 1st April 2021 zero emission electric vehicles (BEVs) are zero-rated standard tax for both the first year and all subsequent years.

The maximum electric power determined in accordance with UN-GTR.21 for this vehicle is 220kW (299PS) and lasts for a maximum of 30 seconds. The power available will depend upon individual driving behaviour and other non-technical factors, however the maximum power for this vehicle requires in particular a temperature of the high voltage battery between 23-50 degrees Celsius and a battery state of charge greater than 88%. However, in order to preserve the usable capacity of the battery as much as possible, it is recommended to set a charging target of 80% for daily operation and use (which can be switched to 100% before long distance journeys for example).

The availability of the maximum electrical output could be limited. The amount of power available in individual driving situations depends on various factors, such as ambient temperature and the charge status, temperature and condition or physical age of the high-voltage battery.

// BENEFIT IN KIND EXAMPLE

Based on ENYAQ COUPÉ iV vRS 82kWh 220 kW		
P11D value		£52,250.00
Company car BiK tax based on CO ₂ emission level		2%
Taxable BiK (for 2022/2023 tax year):	2% of £52,250.00	£1,045.00
Annual company car tax (2022/23)		
20% income tax	20% of £1,045.00	£209.00
40% income tax	40% of £1,045.00	£418.00
Monthly company car tax (2022/23)		
20% income tax	£209.00 divided by 12 months	£17.42
40% income tax	£418.00 divided by 12 months	£34.83

Company car tax is based on the vehicle's carbon dioxide (CO₂) emissions. The higher the emissions, the higher its tax liability. When a company car is made available for private use a 'Benefit in Kind' value is calculated for tax purposes. The table above will help you calculate your tax liability.

P11D (expenses and benefits)

The P11D value is calculated by taking the On The Road (OTR) price for the vehicle, less the Road Fund Licence (RFL) and First Registration Fee (FRF).

BiK (Benefit in Kind)

The BiK percentage value is based on the CO₂ emissions of the vehicle for the current tax year 2022/23.

Figures shown are for comparability purposes; only compare electric range figures with other vehicles tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles, vehicle load and the starting charge of the battery. Figures for battery electric vehicles were obtained after the battery had been fully charged. Battery electric vehicles require mains electricity for charging. Data correct at 1st April 2022. Choice of wheels and other options may affect consumption and range data.

Charging times will depend on various factors, including temperature, state of the battery, state of and capabilities of the charging unit and power supply. Actual charging time will vary depending on the level of charge in the battery, as well as environmental conditions. Charging times will also be affected by the charging curve for example once charging passes 80%, charging will slow to protect the battery's longevity. The availability of the maximum electrical output could be limited.

The maximum electric power determined in accordance with UN-GTR.21 for this vehicle is 220kW (299PS) and lasts for a maximum of 30 seconds. The power available will depend upon individual driving behaviour and other non-technical factors, however the maximum power for this vehicle requires in particular a temperature of the high voltage battery between 23-50 degrees Celsius and a battery state of charge greater than 88%. However, in order to preserve the usable capacity of the battery as much as possible, it is recommended to set a charging target of 80% for daily operation and use (which can be switched to 100% before long distance journeys for example).

The availability of the maximum electrical output could be limited. The amount of power available in individual driving situations depends on various factors, such as ambient temperature and the charge status, temperature and condition or physical age of the high-voltage battery.

Information regarding tyre technical specifications can be found by visiting the ŠKODA car configurator [here](#).

** Please note: If a tow bar or tow bar preparation is not fitted on the car, the VIN plate may not show any towing weights and the car will never be eligible for towing. As such it may not be possible to retrospectively fit a tow bar if the car is not fitted with tow bar preparation at Factory. Please speak to your Retailer to confirm the exact towing eligibility.

// ADDITIONAL INFORMATION

ŠKODA Lease&Care

ŠKODA Lease&Care is a leasing agreement with a level of servicing included in your monthly payments, that allows you to drive a ŠKODA ENYAQ COUPÉ iV without needing to own it.

1. HOW DOES IT WORK?

2. CUSTOMISE YOUR AGREEMENT

Once you have chosen your ŠKODA ENYAQ COUPÉ iV and decided on your initial payment, you need to make three decisions that will affect your monthly payments:

CONTRACT LENGTH

Choose how long you want your ŠKODA ENYAQ COUPÉ iV for.

MILEAGE PER YEAR

Choose how many miles you expect to drive each year.

SERVICING & MAINTENANCE

Choose a Care Package that suits you and your driving style. You can choose from a **Small, Medium** or **Large Package**; this will be included in the monthly cost of your ŠKODA ENYAQ COUPÉ iV.

 [Lease&Care FAQs](#)
[Find out more](#)

3. CARE PACKAGES Choose from three tailored Care Packages.

SMALL

Our Small Care Package covers you for essential servicing:

> All routine manufacturer servicing

> Brake fluid changes

> Dust and pollen filters

> Driverline concierge service

> Roadside Assistance

> Optional VWFS Rent-a-Car allowance of a non-electric vehicle

MEDIUM

This includes everything in Small plus all routine manufacturer maintenance which covers you for:

> Brake, suspension and cooling system repairs

> Electric system maintenance

> All fluid top-ups

LARGE

This includes everything in our Small and Medium Care Packages but also covers you for:

> Tyre replacement and wheel alignment (due to fair wear and tear)

> Puncture repair

> Geometry check and wheel balance

An offer of finance depends on certain conditions. Subject to status. Available to 18s and over in the UK only. Terms and conditions apply. ŠKODA Financial Services.

ŠKODA Financial Services

ŠKODA Financial Services offer a wide range of finance, insurance and servicing packages designed to fit your needs. We specialise in providing simple and convenient funding options for ŠKODA drivers.

Be free to make the switch to electric with ŠKODA Lease&Care, a leasing agreement with a level of servicing included in your monthly payments, that allows you to drive a ŠKODA ENYAQ COUPÉ iV without needing to own it.

The simplicity of this finance plan means all servicing and car costs are covered in one easy, single monthly payment. Just follow these three simple steps:

1. Select your chosen ŠKODA ENYAQ COUPÉ iV.
2. Choose how long you want it for and how many miles you drive.
3. Choose a care package built around you and your driving style.

With no lump sum to pay at the end of your agreement, you're free to move straight into your next ŠKODA or stay in your ENYAQ COUPÉ iV for longer, as all options are built around you.

ŠKODA Financial Services can also offer a Solutions Personal Contract Plan, hire purchase or Contract Hire package for your ŠKODA ENYAQ COUPÉ iV. Please speak to your ŠKODA Retailer to discuss your requirements and for your personalised quotation today.

An offer of finance depends on certain conditions. Subject to status. Available to 18s and over in the UK only. Terms and conditions apply. ŠKODA Financial Services.

ŠKODA Car Insurance

Complimentary ŠKODA Drive Away Insurance

Every new and Approved Used ŠKODA comes with five days' complimentary insurance cover, getting you on the road quickly and easily so you can enjoy the things that matter. ŠKODA Drive Away Insurance is designed specifically for your ŠKODA and guarantees that your car will be repaired in a ŠKODA Approved Repairer. Speak to your ŠKODA Retailer for more details.

Subject to eligibility.

We will also provide you with an annual quote, with no additional questions asked, so you can continue to enjoy all the benefits ŠKODA Car Insurance offers.

Read on for more details.

ŠKODA Car Insurance

ŠKODA Car Insurance offers quality service and support when you need it most, with a policy tailored specifically for your ŠKODA. Just as you'd expect from ŠKODA, our annual car insurance provides comprehensive cover, with lots of benefits included at no extra cost.

Insure your car with ŠKODA and relax knowing we only use ŠKODA trained technicians, who know your car inside out, and ŠKODA genuine parts*, giving you the peace of mind that your ŠKODA will be repaired to the same high standards as before and to original manufacturer specifications.

You also have the added reassurance of electric charging cables and home charger cover, as well as cover for accidents caused by any electric charging cables, when attached to your car. Plus, we'll cover damage to your car's electric battery, whether it is owned or leased, if it becomes damaged as a result of an insured incident.

*Excludes windscreen claims.

ŠKODA Car Insurance is underwritten by U K Insurance Limited.
ŠKODA Financial Services is a trading name of Volkswagen Financial Services (UK) Limited ("VWFS UK"), registered in England and Wales No.2835230 (registered office: Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR). Until 31st October 2022 Volkswagen Insurance Service (Great Britain) Ltd operates as an appointed representative of VWFS UK, after this date all references to Volkswagen Insurance Service (Great Britain) Ltd should instead be read as VWFS UK. VWFS UK is authorised and regulated by the Financial Conduct Authority. VWFS UK and U K Insurance Limited are not part of the same corporate group.

ŠKODA Gap Insurance

What is ŠKODA Gap Insurance?

If your ŠKODA is written off, your motor insurer will usually pay out based on the current market value of your vehicle. This could be a lot less than its original value and therefore may leave you with an unexpected shortfall.

Our Gap Insurance helps to cover the gap left by this shortfall to get you back in a new ŠKODA or help pay off any outstanding finance, lease or hire agreement.

There are two options for you to choose from:

ŠKODA Gap Insurance

This pays the difference between the write off settlement from your motor insurer and the price you paid for your ŠKODA or the outstanding balance payable to the finance company, whichever is the greater amount.

If your vehicle is leased or hired, ŠKODA Gap Insurance will cover the difference between the write off settlement from your motor insurer and the early termination charge. This includes any rentals paid in advance as a deposit up to £2,000.

Cover lasts for 36 months and the maximum claim limit is based on your vehicle purchase price.

ŠKODA Gap Insurance Plus

In addition to all the benefits of ŠKODA Gap Insurance, the ŠKODA Gap Insurance Plus policy includes a 12-month fixed benefit. This will start once your 36-month Gap Insurance cover ends.

If your vehicle is written off during the additional 12-month fixed benefit period of insurance, ŠKODA Gap Insurance will pay a fixed sum of £2,500.

Why choose us?

ŠKODA Gap Insurance gives you the financial protection your ŠKODA deserves. So you can relax knowing that if you need to make a claim, we could help you get back into a replacement ŠKODA.

To discover the additional benefits and full terms and conditions, please refer to the Cover Booklet.

For more information about ŠKODA Gap Insurance, please speak to your nearest participating ŠKODA Retailer or go online www.insurewithskoda.co.uk/gap-insurance

ŠKODA Gap Insurance from ŠKODA Financial Services is administered by Car Care Plan Limited and underwritten by Motors Insurance Company Limited.
ŠKODA Financial Services is a trading name of Volkswagen Financial Services (UK) Limited ("VWFS UK"), registered in England and Wales No.2835230 (registered office: Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR). VWFS UK is not part of the same corporate group as Car Care Plan Limited and Motors Insurance Company Limited.

Service and maintenance

Our range of servicing and maintenance plans will help to keep your ŠKODA in prime condition. Plus, the price is fixed so you won't be caught out by any unbudgeted costs.

All our service plans use genuine ŠKODA approved parts and trained technicians so you know your car is in the hands of experts. Parts and labour also come with two years warranty too.

Service Plans for Electric Vehicles under one year old

This covers your first service for one payment of just £335.99, or 24 monthly payments of £14. The Service Plan includes a maximum of one inspection service, one pollen filter change and one brake fluid change. Electric vehicle services are set to a fixed regime.

Our service plans are designed for customers that travel 10,000 miles or less per year. If you travel over 10,000 miles per year, or would prefer to add maintenance or tyres, then speak to your ŠKODA Retailer to create a more tailored service plan.

All electric vehicles must be set to a fixed service regime.. Exclusions and terms and conditions apply. Offer is available to retail customers only from participating ŠKODA Retailers. Offers may be varied or withdrawn at any time. Freepost ŠKODA Financial Services. Pricing effective from 1st January 2021.
ŠKODA Financial Services is a trading name of Volkswagen Financial Services (UK) Limited, Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR Registered in England number 2835230.

// ADDITIONAL INFORMATION – CONTINUED

Service intervals

Your ENYAQ COUPÉ iV is supplied with a fixed service regime to ensure that your car stays in the best possible shape. A service light will show when the car requires inspection at 24 months.

To keep your ENYAQ COUPÉ iV operating as it should we recommend the following work is carried out every 24 months:

- > Inspection – we'll make sure all the components and systems work as they should.
- > Pollen Filter – we'll renew the Pollen Filter to keep your vehicle cabin clear of dust and odours.
- > Brake Fluid – we'll renew your brake fluid to maintain braking efficiency and function.

Roadside assistance

A three year, European-wide, unlimited mileage ŠKODA Assistance policy comes free of charge with every new ŠKODA. There's a team of specially trained technicians who carry the right diagnostic equipment and parts to get you back on the road as quickly as possible in the unfortunate event of a breakdown.

Provided in partnership with the AA. Exclusions and terms and conditions apply.

For details please speak to your local ŠKODA Retailer.

Customer services

Talk to us on **03330 037 504**. No matter what the query, our dedicated call centre is always ready to listen. No matter how big or small the request, speak to one of our customer care advisors to see if they can help. The call centre is open Monday to Friday from 8.30am-5.30pm. You can also talk to one of our advisors via live chat, on Monday to Friday from 8am-8pm.

A network that's here to help

You can be sure that as a ŠKODA customer, your Retailer will look after you from the moment you walk through the door and throughout the life of your ŠKODA. Your ENYAQ COUPÉ iV will be serviced and maintained by specially trained ŠKODA technicians, and when you need a spare part you'll be happy to know that most are held in stock, or ordered within 24 hours. So if top class customer satisfaction is what you're after, the ŠKODA network will be there for you.

Motability

People who are in receipt of one of the following allowances, and have at least 12 months remaining on their reward, may be eligible for a vehicle via the Motability scheme.

Higher Rate Mobility Component of the Disability Living Allowance (HRMC of DLA), Enhanced Rate of the Mobility Component of Personal Independence Payment (ERMC of PIP), War Pensioners' Mobility Supplement (WPMS) or Armed Forces Independence Payment (AFIP).

For full details of the scheme, current model availability and pricing, please contact the Motability specialist at your local ŠKODA Retailer.

Warranty

Peace of mind with a ŠKODA warranty

In the first two years of owning your car, you'll get the peace of mind of a two year unlimited mileage warranty. In addition, you'll also get a further warranty on new vehicles supplied through the appointed retail network until the vehicle has completed 60,000 miles or the end of the third year, whichever is sooner. Your ENYAQ COUPÉ iV also benefits from a three-year paint warranty and 12-year body protection warranty.

Exclusions and terms and conditions apply.

Owning a ŠKODA

Three-year vehicle warranty from new

First two years unlimited mileage.
Third year with 60,000 mile limitation, whichever is sooner.
Four to five years Optional Extended Warranty.

Three-year paint warranty

Up to 12 years body protection.

Exclusions and limitations

Wear and tear components will only be considered under the terms of the warranty for the first of six months or 6,500 miles, whichever is soonest. These include, but are not limited to brake linings and disc pads, clutch release bearings, clutch pressure plates and centre plates, tyres, wiper blades, seat and backrest covers, floor coverings, spark plugs, batteries for key fobs and alarms, light bulbs and shock absorbers. Mechanical adjustments including but not limited to adjustments to doors, flaps, boot lids, bonnets and sunroof, brake adjustment, clutch adjustment, v belt adjustment, headlight adjustment, steering geometry adjustments and wheel balancing are excluded.

Damage (including but not limited to the following) is excluded:

- > Damage caused by your failure to take all reasonable steps to prevent mechanical damage from occurring.
- > Damage or defects caused by not having the vehicle serviced in accordance with the manufacturer's guidelines.
- > Damage or defects caused by improper use of the vehicle, neglect or use of the vehicle for motor sports activities.
- > Damage caused by an accident.
- > Damage to paintwork or chrome caused by external influences, such as climatic, chemical or industrial pollution.
- > Damage resulting from the use of non-original replacement parts.

Routine maintenance and servicing is not covered by the warranty. Incidental or consequential costs such as hotel charges, car hire, and loss of personal effects or income are not recoverable under the terms of the warranty.

8 Year high-voltage battery Warranty

Free repair of the high-voltage battery, if the damage occurs within 8 years or before reaching a mileage of 100,000 miles (whichever occurs first) from the beginning of the ŠKODA warranty. Reduction in the capacity of the high-voltage battery over time is a natural feature of technology and does not constitute a defect within the meaning of the ŠKODA warranty (this is with regards to a natural lock), provided that this value measured by the ŠKODA service partner does not fall below 70% of the total usable capacity before the expiry of 8 years or before the achievement of 100,000 miles (whichever comes first) from the beginning of the ŠKODA warranty.

In the event of a claim under the ŠKODA warranty regarding damage to the high-voltage battery, the capacity of the high-voltage battery after fault rectification is at least 70% of the total usable capacity, and this is in consideration of all relevant factors including the age, condition and the mileage of the vehicle. There shall be no further claims arising from the ŠKODA Warranty. In particular, no claim for replacement, no right of withdrawal, no claim to purchase price reduction, or provision of a replacement car for the duration of repair and compensation.

Adding that little extra to your car

If the standard specification and factory fitted options aren't enough for you, then why not take a look at our range of Retailer fitted accessories? A separate accessories brochure can be found at your local Retailer, or can be viewed online at: skoda.co.uk/owners/accessories-and-merchandise

Figures shown are for comparability purposes; only compare electric range figures with other vehicles tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles, vehicle load and the starting charge of the battery. Figures for battery electric vehicles were obtained after the battery had been fully charged. Battery electric vehicles require mains electricity for charging. Data correct at 1st April 2022. Choice of wheels and other options may affect consumption and range data.

Charging times will depend on various factors, including temperature, state of the battery, state of and capabilities of the charging unit and power supply. Actual charging time will vary depending on the level of charge in the battery, as well as environmental conditions. Charging times will also be affected by the charging curve for example once charging passes 80%, charging will slow to protect the battery's longevity. The availability of the maximum electrical output could be limited.

The maximum electric power determined in accordance with UN-GTR.21 for this vehicle is 220kW (299PS) and lasts for a maximum of 30 seconds. The power available will depend upon individual driving behaviour and other non-technical factors, however the maximum power for this vehicle requires in particular a temperature of the high voltage battery between 23-50 degrees Celsius and a battery state of charge greater than 88%. However, in order to preserve the usable capacity of the battery as much as possible, it is recommended to set a charging target of 80% for daily operation and use (which can be switched to 100% before long distance journeys for example). The availability of the maximum electrical output could be limited. The amount of power available in individual driving situations depends on various factors, such as ambient temperature and the charge status, temperature and condition or physical age of the high-voltage battery.

Pricing valid as of 1st April 2022 All prices listed are Manufacturer's 'On the road' Recommended Retail Price. ŠKODA may change prices at any time (this includes where there are government changes in regulation and/or legislation). There may be a delay to any RRP displaying correctly on our materials. Always obtain prices from your chosen Retailer. Images shown do not reflect the stated entry level prices. From 1st April 2021 zero emission electric vehicles (BEVs) are zero-rated standard tax for both the first year and all subsequent years.
